Image / video misuse, Impersonation / fake account, Financial fraud / money lost, Personal information exposure (doxxing) and other related offences

Any other information furnished by the complainant:
I have the bank statement showing the payments my friends made.

PART C — STATEMENT OF THE COMPLAINANT

I, Ishita Sharma, residing at Flat 402, Nehru Nagar, New Delhi 110033, New Delhi, Delhi, state as follows. I complain that offences of image / video misuse, impersonation / fake account and financial fraud / money lost occurred on 18 October 2026 at 21:40 at Flat 402, Nehru Nagar, New Delhi (the messages came on my phone). Someone made a fake Instagram account at https://instagram.com/rahul.finance.2024 using my photo and my college ID, and is asking my friends to send me 500 rupees as a gift. They also posted my phone number on the page. The act was committed online, over the internet. This has happened 4 times since 15 October. It is still going on. The amount involved in this matter is 500, and I am reporting it within 24 hours so that a freeze can be attempted. The person or account responsible is the account "rahul.finance.2024" on Instagram (link: https://instagram.com/rahul.finance.2024) - other identifiers: +91 90000 11111, rahul.finance@ybl. A man in his twenties. The profile claims to be a financial advisor. I have the bank statement showing the payments my friends made. The screenshots, videos and other records attached to this case file are true copies of what I hold on my device. I am available to provide the original device, the original files and any further information required by the investigating officer.

PART D — PARTICULARS OF THE PERSON / ACCOUNT RESPONSIBLE

Account / username:
@rahul.finance.2024

Platform:
Instagram

Profile / post link:
https://instagram.com/rahul.finance.2024

Other identifiers (phone, email, UPI, account number):
+91 90000 11111, rahul.finance@ybl

Description of the person:
A man in his twenties. The profile claims to be a financial advisor.

PART E — EVIDENCE FURNISHED WITH THIS CASE FILE

Each item below is attached as an annexure to this case file. The SHA-256 value is the fingerprint of the file as it was given; a forensic examiner can confirm that the file produced is the same file.

Annexure	What it shows	File	Captured
A1	The fake profile asking my friends for money, with the timestamp	screenshot-of-profile.png image/png - 103.4 KB	18 October 2026

`sha256 ee6ca6b06fcc241e2cc788cc6a16c0f946ebf583fc9f352e015bdb19f7d4f867`

PART F DETAILS OF THE COMPLAINTS FILED

Already filed - acknowledgement details

#	Complaint filed at	Date filed	Reference / acknowledgement no.	Status
1	Cyber Crime Financial Fraud (1930)	21 October 2026	NCR-2026-004321	FILED

Identified but not yet filed / to be filed by the complainant

#	Where it has to be filed	Status	Reason it applies
2	Your bank / card issuer fraud cell	Not started	Disputes the transaction with the bank and blocks your card/credentials.
3	National Cyber Crime Reporting Portal	Not started	Creates a legal complaint record with a reference number usable by police and courts.
4	Local police / cyber cell (FIR)	Not started	Creates a First Information Report - required for a court case, insurance or bank claim.
5	CERT-In	Not started	Escalates serious hacking or financial-fraud incidents to the national CERT.
6	Instagram	Not started	Remove the fake or abusive account or post from the platform itself.
7	Facebook	Not started	Get the profile or content taken down on Facebook.
8	X (Twitter)	Not started	Report impersonation, harassment or spam on X.
9	WhatsApp	Not started	Report the account sending the abuse or scam messages.
10	Content Credentials (C2PA) - sign your images	Not started	Attaches verifiable provenance to your images, so a morphed copy of your photo can be traced back to the manipulation.
11	NCMEC Take It Down	Not started	You upload a photo or video; NCMEC removes it and any AI-morphed copy of it across platforms, and files reports to law enforcement.
12	Takedown (CCRI)	Not started	Upload once; Takedown monitors hundreds of sites and platforms and removes every copy, including AI-morphed versions, plus the search results that point to them.
13	StopNCII	Not started	Creates a cryptographic hash of your content. Platforms that have joined the network remove the content - and morphed versions of it - without ever storing the file.
14	RemoveHer	Not started	Removes non-consensual intimate images - including deepfakes and morphed videos - from over a hundred sites in one submission.
15	Data broker / people-search opt-out	Not started	Removes your address, phone and relatives from the people-search sites that fuel doxxing and stalking.
16	Have I Been Pwned	Not started	Tells you whether your email or phone leaked in a breach, which is how attackers seed the follow-up scam.
17	Google - request removal of a URL	Not started	Removes the harm from Google Search results, which is usually how a leaked photo or a fake profile is found in the first place.
18	Bing - request removal of a URL	Not started	Same as Google but for Bing, Copilot and the Microsoft search surface.

PART G RECORD OF WHAT WAS COLLECTED DURING FILING

Every page read and every reference number obtained while the complaint was being filed is recorded below, each entry carrying the fingerprint of the one before it.

#	Artefact	Type	Captured at	SHA-256

1	Complainant's evidence - screenshot-of-profile.png	upload	21 Oct 2026 19:47	66f19bc0c913e064 39cb01dc57d19dd9770 6ab539f5329505141efc e485ee90a
2	Cyber Crime Financial Fraud (1930) - submission confirmation	reference	21 Oct 2026 19:47	aaaaaaaaaaaaaaaa aaaaaaaaaaaaaaaaaaaa aaaaaaaaaaaaaaaaaaaa aaaaaaaaaa

PART I DECLARATION BY THE COMPLAINANT

I declare that the particulars given in Parts A to H of this case file are true to the best of my knowledge and belief, and that the documents annexed under Part E are true copies of the material in my possession. I understand that this document has been prepared with the help of an automated assistant (ReclaimYourNet), which read the official complaint forms and recorded the acknowledgements it received; the substance of this complaint is my own. I am available to appear before any authority, to give a statement, and to produce the original device and the original files on demand.

_____ _____

Signature of the complainant | Witness / parent / guardian (if applicable)

Place: _____ Date: _____

Produced by ReclaimYourNet. The filing details in Part F were collected live from the official portals and submitted by an automated web agent; the complainant reviewed every field before submission. This document is a factual record and not legal advice. The hash chain in Part G is verifiable: each entry hashes the entry before it, so any alteration invalidates every entry that follows it.

ANNEXURE I PHOTOCOPIES OF THE EVIDENCE FURNISHED

The pages that follow are reproductions of the files listed under Part E. The originals are with the complainant.

screenshot-of-profile.png - The fake profile asking my friends for money, with the timestamp

sha256 ee6ca6b06fcc241e2cc788cc6a16c0f946ebf583fc9f352e015bdb19f7d4f867

ANNEXURE II AUTOMATED CLASSIFICATION (FOR INTERNAL REFERENCE)

This annexure is not part of the complaint. It records how the software read the description, so that the assistance given can be reviewed. The complaint stands on Parts A to I.

Urgency assessed: HIGH

- Money was moved. A freeze is only realistically possible if reported within 24 hours.
- Your address is public - physical safety and relocation risk.

Sensitive values masked in the automated summary: [AMOUNT_1]
