COMPLAINT CASE FILE

File reference RYN-2026-67C877E5 | Printed 21 Oct 2026 19:51 | Prepared with ReclaimYourNet

This is a factual record prepared from the complainant's own account. It is meant to be printed and handed over to a police station, a cyber cell, a bank, a platform or a lawyer, alongside the original evidence.

PART A — PARTICULARS OF THE COMPLAINANT

Name:
Not stated

Mobile number:
Not stated

Email:
Not stated

City:
Not stated

Address:
Not stated

State:
Not stated

Identification:
Not stated

Country:
IN

PART B — PARTICULARS OF THE INCIDENT

Date of the incident:
18 October 2026

Time of the incident:
21:40

Place where it happened:
Flat 402, Nehru Nagar, New Delhi

Manner:
Committed online

Amount involved:
500

Still continuing:
No

How often:
Not stated

Complaint type:
Image / video misuse, Impersonation / fake account, Financial fraud / money lost, Account takeover / hacking

PART C — STATEMENT OF THE COMPLAINANT

I complain that offences of image / video misuse, impersonation / fake account and financial fraud / money lost occurred on 18 October 2026 at 21:40 at Flat 402, Nehru Nagar, New Delhi. Someone made a fake Instagram account at https://instagram.com/rahul.finance.2024 using my photo and asking my friends to send me 500 rupees. The act was committed online, over the internet. The amount involved in this matter is 500, and I am reporting it within 24 hours so that a freeze can be attempted. The person or account responsible is the account "rahul.finance.2024". The screenshots, videos and other records attached to this case file are true copies of what I hold on my device. I am available to provide the original device, the original files and any further information required by the investigating officer.

PART D — PARTICULARS OF THE PERSON / ACCOUNT RESPONSIBLE

Account / username:
@rahul.finance.2024

Platform:
Not stated

PART E — EVIDENCE FURNISHED WITH THIS CASE FILE

Each item below is attached as an annexure to this case file. The SHA-256 value is the fingerprint of the file as it was given; a forensic examiner can confirm that the file produced is the same file.

Annexure	What it shows	File	Captured
A1	The fake profile asking my friends for money	screenshot-of-fake-profile.png image/png - 2.5 KB	Not stated

`sha256 477303d08301aedd69ec9aad5f89420895a7aba4a4fd865cb8f089c88bfc66d0`

PART F — DETAILS OF THE COMPLAINTS FILED

Identified but not yet filed / to be filed by the complainant

#	Where it has to be filed	Status	Reason it applies
1	Cyber Crime Financial Fraud (1930)	Not started	Triggers a bank/payment freeze on money that left your account.
2	Your bank / card issuer fraud cell	Not started	Disputes the transaction with the bank and blocks your card/credentials.

3	National Cyber Crime Reporting Portal	Not started	Creates a legal complaint record with a reference number usable by police and courts.
4	CERT-In	Not started	Escalates serious hacking or financial-fraud incidents to the national CERT.
5	Instagram	Not started	Remove the fake or abusive account or post from the platform itself.
6	Facebook	Not started	Get the profile or content taken down on Facebook.
7	X (Twitter)	Not started	Report impersonation, harassment or spam on X.
8	WhatsApp	Not started	Report the account sending the abuse or scam messages.
9	Content Credentials (C2PA) - sign your images	Not started	Attaches verifiable provenance to your images, so a morphed copy of your photo can be traced back to the manipulation.
10	NCMEC Take It Down	Not started	You upload a photo or video; NCMEC removes it and any AI-morphed copy of it across platforms, and files reports to law enforcement.
11	Takedown (CCRI)	Not started	Upload once; Takedown monitors hundreds of sites and platforms and removes every copy, including AI-morphed versions, plus the search results that point to them.
12	StopNCII	Not started	Creates a cryptographic hash of your content. Platforms that have joined the network remove the content - and morphed versions of it - without ever storing the file.
13	RemoveHer	Not started	Removes non-consensual intimate images - including deepfakes and morphed videos - from over a hundred sites in one submission.
14	Have I Been Pwned	Not started	Tells you whether your email or phone leaked in a breach, which is how attackers seed the follow-up scam.
15	Google - request removal of a URL	Not started	Removes the harm from Google Search results, which is usually how a leaked photo or a fake profile is found in the first place.
16	Bing - request removal of a URL	Not started	Same as Google but for Bing, Copilot and the Microsoft search surface.

PART G — RECORD OF WHAT WAS COLLECTED DURING FILING

Every page read and every reference number obtained while the complaint was being filed is recorded below, each entry carrying the fingerprint of the one before it.

#	Artefact	Type	Captured at	SHA-256
1	Complainant's evidence - screenshot-of-fake-profile.png	upload	21 Oct 2026 19:51	2129c411443e9b43aedef5fb9a670c328852f005a7ca140889566a887a2019af

PART I — DECLARATION BY THE COMPLAINANT

I declare that the particulars given in Parts A to H of this case file are true to the best of my knowledge and belief, and that the documents annexed under Part E are true copies of the material in my possession. I understand that this document has been prepared with the help of an automated assistant (ReclaimYourNet), which read the official complaint forms and recorded the acknowledgements it received; the substance of this complaint is my own. I am available to appear before any authority, to give a statement, and to produce the original device and the original files on demand.

Signature of the complainant

Witness / parent / guardian (if applicable)

Place: _____

Date: _____

Produced by ReclaimYourNet. The filing details in Part F were collected live from the official portals and submitted by an automated web agent; the complainant reviewed every field before submission. This document is a factual record and not legal advice. The hash chain in Part G is verifiable: each entry hashes the entry before it, so any alteration invalidates every entry that follows it.

ANNEXURE I PHOTOCOPIES OF THE EVIDENCE FURNISHED

The pages that follow are reproductions of the files listed under Part E. The originals are with the complainant.

screenshot-of-fake-profile.png - The fake profile asking my friends for money

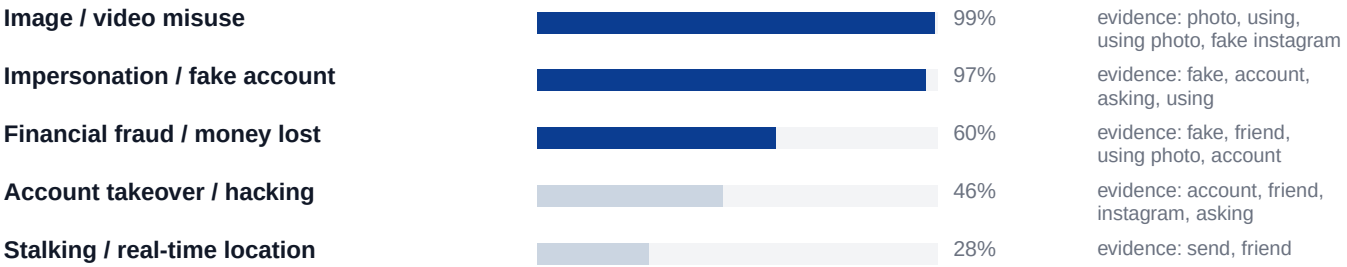
ANNEXURE II AUTOMATED CLASSIFICATION (FOR INTERNAL REFERENCE)

This annexure is not part of the complaint. It records how the software read the description, so that the assistance given can be reviewed. The complaint stands on Parts A to I.



Urgency assessed: HIGH

- Money was moved. A freeze is only realistically possible if reported within 24 hours.

Sensitive values masked in the automated summary: [AMOUNT_1]
